

## New Waste Management Building for North Yorkshire Council

### Project Details

Completed	2022
Sector	Processing
Location	Skipton
Type	Mechanical & Electrical

Watson's Building Services was appointed to design and install a new waste management building for North Yorkshire Council, which includes multi-use Office Space, Welfare Facilities and Vehicle Maintenance Workshop areas. The building is designed to be modern, efficient and sustainable.

### Project Scope

- ▶ Energy recovery ventilation
- ▶ Rainwater harvesting
- ▶ Motion detection lighting controls + daylight dimming
- ▶ Air source heat pumps
- ▶ Solar PV panels with battery storage and EV charge points
